Nativity Color Match

Assembly: Color (if necessary) the four different nativity sets each a different color. Mount the manger pieces to the FF, cut out the individual people and stars and store in a small baggie.

Play: Let the children fill the manger with the correctly colored people. When they've gotten good at this, challenge them to have a different colored person in each set.

Scripture: Talk with the children about Christmas, and why we put out Nativity sets. Read to them from the bible the story of the birth of Jesus.
